

## Unit 4

# Buying a computer

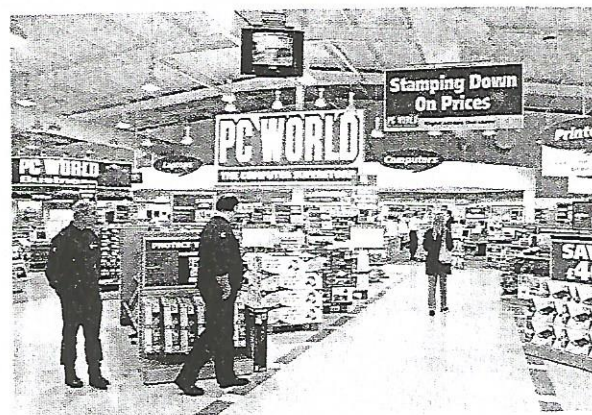

### In a computer shop

 Imagine you are in a computer shop. Choose five things that would improve your digital life. In pairs, compare your choices.

 You want to buy a computer. Think of three basic features that will make a big difference to your choice. In pairs, compare your choices.

 Listen to two people making enquiries in a computer shop. Do they buy anything? *150*

 Listen again and complete the product descriptions.
